Password : par8\$22

## Color Management

---

Note that **Multi-Action Labels** is the owner of a complete color management system. If you wish to provide the color integrity of your printed labels, follow this procedure :

- Provide information about the source of your document (default icc profile installed in your software);
- Saving the final document, incorporate the document and image profiles.

When the graphic artists who wish to work on their original documents using the press profiles provided by **Multi-Action Labels**, contact the graphics department.

## Rules and procedures

---

- For all electronic file transfers, you must provide a pdf in order to insure the quality of your final document. Please provide color proofing for files on CD or DVD.
- If the documents provided do not meet **Multi-Action Labels'** standards (ex.: dimensions, colors, software used, resolution, etc...) some file manipulation fees may be charged.
